ABOUT ME

Full Stack Software Engineer with over **15 years' experience** creating inclusive, scalable, and human-centered web applications. Dual qualified in **Software Development** and **UX Design**, bridging the gap between design and engineering for optimal user experiences.

Passionate about **web accessibility (A11Y)** and inclusive technology, I serve as a **Google Women Techmakers Ambassador**, **Google Developer Group Organizer**, and **DevFest Speaker**, advocating accessibility and developer education globally.

TECHNICAL PROFICIENCIES

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL, PHP

Frameworks: React, Angular, Redux, RxJS, Node.js, Express, Bootstrap, Ionic

Cloud & Infrastructure: AWS, Google Cloud Platform (Cloud Run, API Gateway, Lambda, Load Balancing)

Databases: PostgreSQL, MongoDB

Testing: Cypress, Jasmine, Karma, Mocha, Jest, Selenium

CI/CD & DevOps: Jenkins, Git, Jira, Webpack, Microservices, Docker, Agile/Scrum

Design & UX: Google UX Design Certified, Figma, Sketch, Wireframing, Prototyping, A/B Testing, A11Y (WCAG, VPAT)

PROFESSIONAL EXPERIENCE

ACHickAndAClick LLC | Software Engineer UX/UI — Remote | 2009 – Present

- Lead end-to-end full-stack projects using **React, Angular, Node.js, and WordPress**.
- Built **Tesla Car Booking App** mockups and **custom React plugins**.
- Led accessibility initiatives ensuring **WCAG 2.2 compliance**.
- Delivered **Google Developer Workshops** on accessibility (DevFest Miami 2023).

K16 Solutions | Software Engineer – Full Stack — Remote | 2021 – 2023

- Drafted **VPAT Accessibility Reports** and enhanced **UI performance** with Angular + Nebular.
- Integrated **AWS Lambda** microservices with Node.js and PostgreSQL.
- Automated pipelines with **Jenkins + Git** and monitored metrics via **CloudWatch**.

Capgemini | Frontend Software Engineer (Consultant) — Remote | 2018 – 2019

- Developed SPAs for **Synchrony Financial** and **Willis Towers Watson** using React & Angular.
- Implemented accessibility, Material Design UI, and cross-browser optimization.
- Projects: [Vindati.com](#) | [SageUnderwriters.com](#).

Kaplan Inc. (Colloquy360) | Software Engineer II — Remote | 2014 – 2016

- Created LMS/CMS themes and plugins using **PHP (Moodle)**, HTML, and JS.
- Maintained robust code framework with **PHPUnit** and Git.

Career Break — Bali, Indonesia | 2023

Six-month professional and creative sabbatical emphasizing health, exploration, and renewed focus on accessibility-driven innovation.

HIGHLIGHTED PROJECTS

- **DevFest A11Y Website (2023)**: Web accessibility exercises & solutions.
[GitHub](#) | [Live Site](#)
 - **Vanilla Bean Mockup Library**: Open-source JS library for interactive mobile mockups.
[GitHub](#)
-

COMMUNITY INVOLVEMENT

- **Women Techmakers Ambassador (2022 – Present)**: Mentorship & visibility for women in tech.
 - **Google Developer Group Organizer – Hudson Valley (2022 – Present)**: Host coding demos and hackathons.
 - **DevFest Miami Speaker (2023)**: Presented workshop on coding for accessibility and VPAT value.
-

CERTIFICATIONS

[Google UX Design Certificate](#)

Google Cloud Digital Leader

Google Cloud Certifications – [Kubernetes](#), [Serverless Cloud Run](#), [Hybrid Cloud with Anthos](#), [App Development on Cloud Run](#)

React Developer Certified (2020)

WordPress Developer Certified

EDUCATION

M.S., Information Systems — Saint Thomas University, Miami, FL

B.A., Liberal Arts — University of Florida, Gainesville, FL
